

BENEFIT OF PRIVATE CHARTER

Below is a comparison of journey times between Sovereign Business Link and a Scheduled Airline. The journey is arranged around a visit to Paris, France by employees based in the Ascot area. This example has been created to provide you with an idea of the timescale of each journey assuming the passengers are in Paris for a meeting mid morning. Times suggested by Sovereign should not be taken as the definitive, but as an example. Times have been obtained from the larger airline's timetable for this example on the 09 January 2004.

Although the length of day remained the same, flying with Sovereign allowed our Clients the opportunity to spend longer at their destination. This meant their visit was not rushed and their time spent in Paris was effective.
